PROJECTS

Basic News Website
Full Stack Web Development (HTML , CSS, JS , PHP , MySQL)

The Daily News is a dynamic online platform delivering timely and engaging news on various topics such as current events, politics, technology, and more. Built with HTML, CSS, JavaScript, PHP, and MySQL, it ensures a smooth user experience and efficient content management. Committed to accuracy and journalistic integrity, it aims to be a trusted news source.

Login System Dashboard
Full Stack Web Development (HTML , CSS, JS , Bootstrap , PHP , MySQL)

The Login System Dashboard provides an easy-to-use interface for managing users, including logging in, registering, and recovering passwords. It handles user data efficiently and offers a smooth, responsive experience with strong security measures to protect information.

Basic Student Management System
Full Stack Web Development (HTML , CSS, JS , PHP , MySQL)

The Basic Student Management System allows users to manage student information by adding, updating, and deleting records. It supports database operations for inserting and retrieving data, providing an efficient and user-friendly interface for tracking grades and attendance. Built with HTML, CSS, JavaScript, PHP, and MySQL, it ensures seamless data management.

Astrology Website (www.mallikavermaastro.in)
WordPress

The MalikaVermaAstro website, built using WordPress with Elementor, ElementsKit, and Envato, offers a professional and visually appealing platform. It features a range of astrological services and information, utilizing advanced design elements and templates for a seamless user experience and easy content management.

Car Rental Website (dehradunselfdrivecar.com)
Word Press

The Car Rental Website (dehradunselfdrivecar.com), built using WordPress with Elementor, ElementsKit, and Envato, offers a user-friendly platform for renting cars. It features an intuitive design for browsing available vehicles, booking rentals, etc. The website ensures a seamless experience with a modern layout and efficient functionality.
